DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

1. Group I, claim(s) 1-3 and 6-10, drawn to functionalized polymer having structure -
(CWX-CYZ)_n.-

2. Group II, claim(s) 5, drawn to surface modified medical instrument.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding technical features for the following reasons.

The technical feature linking claims 1-3 and 6-10 appears to be compounds of structural formula (I).

However Mazid et al (WO 91/15252) teach compounds which have the structural core of instant formula (1).

Thus, the technical feature linking the inventions of Groups I-II does not constitute a special technical feature as defined by PCT Rule 13.2, as it does not define a contribution over the prior art.

Art Unit: 1623

The special technical feature of Group I is considered to be to functionalized polymer having structure – (CWX-CYZ)_n-

The special technical feature of Group II is considered to be a surface modified medical instrument.

The applicant is required to elect a species for W in formula (1) from the group listed in claim 3.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
